Need help transitioning from ArcMap to ArcGIS Pro?

TAKING THE LEAP MEANS YOUR ORGANIZATION CAN:

- Save time with automated conversions.
- Integrate with all of your enterprise systems.
- Reap the rewards of refreshed data (updated and accurate).
- Increase user-adoption through training.
- Get expert help navigating this exciting change.

MNC and Silvacom CS, **Esri Gold Partners**, are the go-to experts for organizations navigating the transition to ArcGIS Pro. With decades of geospatial experience and a proven track record, we offer tailored end-to-end modernization solutions.

BY PARTNERING WITH US, YOU CAN:

Plan Your Migration: Clarify requirements and plan an effective roadmap.

Boost Productivity: Streamline GIS operations and eliminate inefficiencies.

Elevate Data Accuracy: Deliver reliable maps and data to stakeholders.

Foster Collaboration: Enable seamless teamwork with cutting-edge GIS technology.

Stay Ahead of Deadlines: Transition confidently before ArcMap deprecation.

Overcome your challenges!
Scalable solutions for a seamless transition:

CHALLENGES	OUR SOLUTIONS
Migration Complexity and Uncertainty of Requirements: • Technical and infrastructure challenges • Organizational and human factors • Lack of direction, confusion on where to start and what is involved	**Assessment, Planning, and Strategy:** • Assess workflows, data, custom tools, infrastructure, and user skills • Identify gaps and challenges • Ensure alignment with organizational objectives and initiatives • Develop a migration roadmap
Transition to ArcGIS Pro: • Steep learning curve – adapting to a new interface and workflows • Training needs – increased investment in staff training • Change management – resistance from users accustomed to ArcMap • Adoption Challenges – gaining widespread acceptance within teams	**Transition teams to ArcGIS Pro:** • Recommend training plans to equip teams with the skills required to confidently use ArcGIS Pro • Engagement and communication with organizations and teams to facilitate adoption and address change management issues • Empower individuals and teams to be part of the solution
Compatibility, Cost, and Migration: • Licensing challenges – complexity and potential cost increases with new models • Hardware upgrades – ArcGIS Pro demands higher performance infrastructure • Data Migration – complex, time-intensive, and risk-prone	**System, Licensing, and Data Migration:** • Navigate complex licensing migration • Infrastructure recommendations, setup, and configuration • Accurately migrate maps and data
Workflow Adaptation: • Redesigning processes – established workflows need reconfiguration • Automation rewrite – legacy scripts must be updated for Python compatibility • ArcGIS Pro has new functionality	**Workflow Adaptation and Optimization:** • Migrate existing tools and scripts • Leverage new ArcGIS Pro functionality
System Integrations and Interoperability: • System integration – ensuring seamless integration with other enterprise tools	**System Integration and Interoperability:** • Ensure compatibility and integrations with existing upstream and downstream enterprise systems and applications
Support and Maintenance: • End of Support – ArcMap will no longer receive patches or updates • Legacy Systems – Dependent tools and systems may require replacement • Ongoing support and maintenance for the new GIS infrastructure	**Support and Maintenance:** • Technical support • Systems modernization • GIS Managed Services

Take the leap to modernize your GIS operations with our expert guidance. MNC and Silvacom CS have the experience and expertise to facilitate a more efficient, effective, and less disruptive transition from ArcMap to ArcGIS Pro, helping organizations maximize the benefits of the new platform.

OUR SPECIALIZED PACKAGES AND SERVICE OFFERINGS

Turn-Key Modernization Package

END-TO-END TRANSITION SUPPORT, INCLUDING:

- Assessment and Roadmap
- Team Transitioning
- ArcGIS Pro Setup and Configuration
- Data Conversion and Migrations
- Workflow Adaptation
- System Integrations
- Support and Maintenance

CONTACT US FOR PRICING

Assessment & Roadmap Package

Infrastructure assessment, data inventory, compatibility analysis, and transition planning.

CONTACT US FOR PRICING

Data Migration & Integrity Assurance Package

Comprehensive data migration with validation and testing for data integrity.

CONTACT US FOR PRICING

Workflow Optimization & Automation Package

Redefining workflows, updating scripts, and enhancing automation to leverage and fit ArcGIS Pro and Esri technology.

CONTACT US FOR PRICING

Comprehensive Training & User Enablement Package

Role-based training, hands-on workshops, and user adoption support.

CONTACT US FOR PRICING

GIS Managed Services

Ongoing GIS Infrastructure management.

CONTACT US FOR PRICING

Enhanced Integration & Customization Package

System integrations, configured tools, and tailored GIS applications.

CONTACT US FOR PRICING

We've helped numerous organizations transition from ArcMap to ArcGIS Pro, and we'd love to do the same for your organization. Contact us today to discuss your specific needs and schedule a consultation.

ABOUT MNC

Martin Newby Consulting Ltd. (MNC) is a leading geospatial solutions provider with over 25 years of expertise in cadastral and parcel management. As an Esri Gold Partner and a recognized Cornerstone Partner proudly holding Esri's Parcel Management Speciality, MNC specializes in creating, updating, and managing Esri Parcel Fabrics, ensuring seamless integration with ArcGIS Pro to deliver exceptional accuracy and efficiency in land and cadastral data management. Leveraging advanced platforms like ArcGIS Pro, FME, MicroStation, and AutoCAD, and supported by strategic partnerships with AWS and Alberta Data Partnerships, MNC delivers scalable, cutting-edge geospatial solutions tailored to the unique needs of government and private organizations.

MNC's expertise extends beyond technology to regional impact, driving economic and social improvements across North America and the Caribbean through customized GIS strategies that address diverse geographic and operational challenges. Renowned for its commitment to operational efficiency, data quality, and customer collaboration, MNC consistently delivers innovative and transformative solutions. From ArcGIS Desktop Deprecation support to advanced Parcel Fabric services, GIS strategy, data migration, database design, and training, MNC provides end-to-end support that empowers clients to modernize systems, streamline workflows, and achieve lasting success in land and geospatial management.

ABOUT SILVACOM CS

Silvacom CS is a leader in geospatial technology, specializing in integrating and modernizing systems to enhance business operations and decision-making. As an Esri Gold Partner, we deliver cutting-edge geospatial solutions that optimize functionality, streamline workflows, and elevate user experiences.

- Comprehensive Expertise: Silvacom CS develops tailored geospatial strategies that improve geographic data management and analysis, enabling smarter location-based decision making. Our capabilities include configuring and deployment of ArcGIS Enterprise solutions, such as Esri Parcel Fabric implementations which modernize legacy data models, tools and workflows to meet current standards.
- Advanced Technology: Leveraging top-tier platforms like ArcGIS Enterprise, ArcGIS Online, and FME Flow, we can deploy scalable solutions using cloud providers AWS, Microsoft Azure, and client datacenters; ensuring seamless data integration and performance optimization.
- Custom Solutions: We excel in creating innovative software products that reduce manual interventions, enhance operational efficiency, and streamline complex geospatial workflows. Esri and FME based services facilitate smooth data migration and transformation for robust system modernization.
- End-to-End Service Delivery: From GIS integration and advanced spatial analysis to custom application development, our expertise spans Agile, Scrum, and Waterfall methodologies, providing clients with adaptable, enterprise-grade solutions.

With a focus on innovation, scalability, and client-centric solutions, Silvacom CS empowers organizations to transform geospatial challenges into opportunities, ensuring sustainable success and operational excellence.
